Lluís Padró

Category: Associate Professor
Doctor : yes
Department: Computer Science
Centre: Universitat Politècnica de Catalunya
Email address: padro@cs.upc.edu
Phone: +34 93 413 4015

Dr. Lluís Padró holds a PhD in Artificial Intelligence (1998) and is Associate Professor at Universitat Politècnica de Catalunya. His teaching experience includes a wide range of subjects in Computer Science.

His research area is framed in Natural Language Processing, (morphological and syntactic analyzers, dependency, sense disambiguators, semantic role labellers, etc). He has published in prestiged conferences (ACL, ANLP, NAACL...) and journals (Machine Learning, Computational Linguistics, ...). He has been advisor of eight PhD thesis, and served as program committee for lead conferences and journals.

He has leded or participated in 18 research projects funded by competitive programmes, either by Spanish/Catalan governments or European Union.

From 2012 to 2016, he was the head of the UPC TALP (Language and Speech Technologies and Applications) Research Center.

He is also the founder, administrator and main developer of project FreeLing (<http://nlp.lsi.upc.edu/freeling>).
