M^a Jesús Aranzabe has a Bachelor's Degree in Basque Philology (1989, University of Deusto) and a PhD in Basque Philology (2008, University of Basque Country, UPV/EHU). Currently she is an Aggregate Professor at the UPV/EHU, and she lectures at the Gipuzkoa campus. Her main teaching activity focuses on the following subjects for the Chemistry degree: Norms and uses of Basque; Communication in Basque: Science and Technology.

She is a member of the Ixa Research Group for Natural Language Processing since 1993. Her publications involve the field of Applied Linguistics, and her research interests include the development of linguistic resources, and the area of specialized terminology.
